BENCHMARK COMMENCES DRILLING AT ITS GOLD-SILVER PROPERTY

Edmonton – June 30th, 2020 – Benchmark Metals Inc. (the "**Company**" or "**Benchmark**") (TSX-V: BNCH) (OTCQB: CYRTF) (WKN: A2JM2X) – is pleased to announce the start of resource expansion and definition drilling. The Company has already completed in excess of 270 metres of drilling with two (2) drill rigs positioned and turning at the Cliff Creek Zone (CCZ). An additional two (2) dill rigs will be added this week for a total of four (4). Drill holes will be logged and sampled in preparation for assay analysis. Benchmark's Lawyers gold-silver project is located in the Golden Horseshoe of north-central British Columbia, Canada.

John Williamson, CEO commented, "The Company has embarked on the largest drill program in the Toodogonne region. The drill rigs have started at Cliff's with additional drilling to soon commence at the ABG Zone. In 2019 drilling encountered multiple new zones and large extensions across multiple areas at the heart of the property. Every zone still remains open in all directions and as such, we anticipate more new mineralization to be discovered with the drill".

The Company has up to 50,000 metres of planned drilling with the majority of new drilling focused on resource expansion and definition drilling. Benchmark sees potential to convert the existing exploration targets into a multi-million-ounce gold-silver Mineral Resource Estimate. A limited amount of drilling will test new exploration targets that exhibit anomalous geological features for the discovery of new, at surface, mineralized zones. The road-accessible Lawyers

Gold-Silver Project located 45 km from the world-class Kemess Au-Cu Porphyry Deposit. Selected previous drill results from the Cliff Creek Zone include:

- 2.40m at 87 g/t gold & 2,407 g/t silver, and;
- 36.50m at 2.68 g/t gold & 82.57 g/t silver.
